

Pocket Dobby

design and present your dobbies mobile!

Booria Pocket Dobby is a new mobile solution for textile engineers and designers. This mobile solution is a dedicated package for doobby fabric development, which offers an easy to use control over the weaving process such as peg-plan, yarn colors, warp and weft patterns.

Booria Pocket Dobby is the easiest Dobby design system for creating any type of fabrics such as; plain, sateen, twill, basket and more with great ease directly on your Pocket PC where ever you are.

Outstanding library of ready to use plaid designs and weaves, enable designers to develop their designs very quickly.

Coming with a new different vision to provide the mobile Dobby designing and marketing solution, **Booria Pocket Dobby** enable the loom managers, designers and marketing groups to be online and synchronized every where.

Do you want to go mobile?
